**Sub: Boiler Operation Engineer Rules, 2011- clarification regarding B.E. in Electrical & Electronics Engineering (EEE)**

Dear Sir,

I am to refer to rule 31(a) of the Boiler Operation Engineer Rules, 2011 wherein it has been prescribed that a candidate for the certificate of proficiency for Boiler Operation Engineer(BOE) shall possess a degree or diploma in Mechanical or **Electrical** or Chemical or Power Plant or Production or Instrumentation Engineering from a recognized institution.

Recently a representation was received for treating "B.E. degree in Electrical & Electronics Engineering (EEE)" equivalent to B.E. in Electrical Engineering. The matter was referred to All India Council for Technical Education (AICTE) who inter-alia have clarified that the requests received for granting equivalence to degree courses for employment purpose will be left to the discretion of employer.

Keeping above in view, in rule 31(a) of the Boiler Operation Engineer Rules, 2011 "B.E (Electrical & Electronics Engineering)" may be treated at par with "B.E (Electrical Engineering)".

Thanking you,

Yours Sincerely,

(T.S. G. Narayannen)
